

Re-Elect Jan Shriner for Strong, Responsible MCWD Leadership

photo by Steve Zmak

“Our water is my focus”

JAN SHRINER

Dear Friends & Neighbors:

I am running for re-election for the Board of Marina Coast Water District (MCWD) in November 2018. With your support, this will be my third term.

- I defend groundwater quality. I am volunteering with Protect Monterey County, promoting the ban of fracking and trying to stop injection of untreated wastewater into the Salinas Valley Groundwater Basin (SVGB).
- I work on groundwater management. In 2016 I participated with the Environmental Caucus of the Collaborative Working Group of the SVGB for the new Groundwater Sustainability Act. In 2017, I supported Marina Coast to establish Groundwater Sustainability Agency (GSA) for central Marina and Ord Community.
- I strive to create science-based policies such as applying Stanford's Aerial Electromagnetic (AEM) Survey. Scientists can provide AEM imagery to help us determine and maintain specific underground drinking water resources.
- I see reducing the carbon footprint of MCWD as part of the next five-year Strategic Plan.
- I do not accept donations from large corporations.

Key endorsements include: Monterey County District 4 Supervisor Jane Parker, Marina City Councilmembers Frank O'Connell and Gail Morton, MCWD Board President Tom Moore, MCWD Board Member Herbert Cortez and MPUSD Board Member Wendy Root-Askew.

Please support my re-election for continued work on your clean, healthful water. www.shriner4water.com
